WHO WE ARE

A FIELD TEAM, WORKING FOR YOUR AUDIENCES

Les Studios Amirshotit is a video production and visual storytelling studio based in Ouagadougou, Burkina Faso. We work with NGOs, international organizations, companies and institutions, creating photos and films designed for their audiences.

We always start the same way: understanding who you need to reach — donors, beneficiaries, clients, future talent — before talking equipment.

100+ projects for organizations	**5+ years** of team experience in the field
50+ locations across Burkina Faso	**1 team** for photo and video

> **Our ambition: to make visual storytelling a way to showcase the initiatives, organizations and transformations shaping Burkina Faso.**

WHAT WE OFFER

FOUR WAYS WE SUPPORT YOU

01

Documenting the field

Photo and video reports on your projects, beneficiary testimonials, images for your reports and donors.

For NGOs and development programs.

02

Telling your organization's story

Institutional films, team portraits, content for recruitment and employer branding.

For companies and institutions.

03

Covering your events

Conferences, launches, official ceremonies: same-day photos, then a highlight film.

For everyone.

04

Running your social media

Short clips, vertical formats, regular production to keep your accounts alive.

For organizations that communicate all year round.

- Our skills: video production, corporate films, reporting, photography, studio photography, events, advertising, social media content, drone footage.

NGOS & INTERNATIONAL ORGANIZATIONS

FROM THE FIELD TO THE REPORT

Images that show your impact, with respect for the people on camera. We adapt formats and delivery schedules to your donors' requirements, without losing the authenticity of the field.

Deliverables ready for your donors

- Several versions as needed: long film, short cut, social media clips
- Subtitles in French and English
- Compliance with your donor's visibility guidelines: logos and funding acknowledgements
- Captioned photos (place, date, context), ready for your reports
- For events, a selection of photos delivered the same day

OUR METHOD

A METHOD THAT STARTS WITH YOUR AUDIENCE

01
Understand
Who do you want to reach, and why? We clarify your audience and goal.

02
Design
We build the creative approach.

03
Produce
We shoot on location.

04
Finish
Editing, retouching and post-production.

05
Deliver
Ready-to-use content.

06
Amplify
Support with distribution, as an option.

IN THE FIELD

We film people, not subjects

- Consent explained in each person's own language; written consent for every interview
- A parent's or guardian's consent to film a child
- Never a full name or exact place of residence for people at risk
- No misleading staging, no miserabilist images

OUR SERVICE COMMITMENTS

What you can expect from us

- A reply to your request within 48 business hours
- Respect for the brief and deadlines
- Systematic quality control before delivery
- Confidentiality of your content
- Clear quotes, no surprises
